Work Experience

Hyperconnect (Match Group) **Seoul, Korea**
Product Designer **May 2022 - Present**

Owned AZAR Live and new business initiatives, leading end-to-end product design across streamer experience, engagement mechanics, monetization UX, localization, and design system work.

- Improved streamer engagement and retention by making progression and motivation visible in-product (tier visibility, contest mechanics, post-live feedback). Improved +5% streamer ratio, +3% active unique streamers, +1min average daily streaming time (post-release).
- Simplified reward conversion UX by redesigning the conversion flow (AS-IS → TO-BE) to reduce friction and support continued activity.
- Designed localization to ensure UX for multiple global markets by adapting key flows and geographically targeted UX by adapting key flows and UX duplicate to regional usage patterns
- Built a multi-brand design system for a live SDK migration, including token architecture (Ref/Sys/Comp), naming rules, and a reusable component library.

Voithru - Product Designer **Seoul, Korea**
Product Designer **Jun 2019 - Jul 2021**

Led the majority of product design at an early-stage startup, driving the product from launch through stabilization and scaling from Seed to Series B.

- JAMAKE (video translation product): redesigned the purchase journey and guidance to reduce drop-off and shorten decision time.
- Increasing +12% YouTube linking rate, +1.5 increase in average purchase count, major reduction in step-related CS inquiries.
- Minglo: redesigned the end-to-end experience to reduce coordination overhead and improve completion quality. +50% product adoption, +11% daily throughput, -5% delivery error rate (post-release).

Skills

Proficient in Figma, Sketch, Adobe Creative Suite, and prototyping tools for product UI, visual design, scalable design systems, and interactive prototypes that help validate flows and align teams before development.

Education

Dong-A University **Busan, Korea**
B.A i n Industrial Design (Visual Media Design) **Mar 2014 - Feb 2020**
